

Video-based

knowledge transfer

rimon

www.rimon.tech

When experienced **employees retire**, companies risk losing their critical know-how.

Video

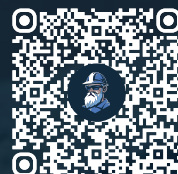

Documentation

Digital Walter

Walter is the **assistant** that makes expert knowledge searchable – finding **the right spot in videos** and documents, instantly, AI-powered and in any language.

Experts **record their work** hands-free with bodycams – our system instantly turns it into **multilingual instructions**.

Retaining invaluable expert knowledge

Book a
30-min
discovery
call.

Our Solution

We transform expert knowledge into **instantly available, accessible answers** on the job.

1 CAPTURE

Walter

Experts capture their knowledge directly at the workplace as video.

2 PROCESS

Digital Walter

Content is automatically structured, linked with documents, and made searchable.

3 USE

Jonas

Employees find answers instantly – via QR code or link.

Measurable Benefits

<1

ROI in less than 12 months

2x

Faster creation of instructions

-25%

Fewer execution errors

-30%

Shorter cycle times

Less downtime
Fast answers instead of long searches
